CORE COMPETENCIES

- Enterprise Networking
- Cisco Routing & Switching
- Network Security
- FortiGate Firewalls
- Windows Server Administration
- Red Hat Enterprise Linux
- VoIP Solutions
- Wireless Networking
- Network Troubleshooting
- Technical Support
- Infrastructure Management
- DevOps Fundamentals

Language

- Arabic — Native
- English — Good

Professional Experience

Network Engineer

Netway Network Solutions *July 2024 – Present*

13 El Madfaeya Buildings, Ard El Golf, Heliopolis, Cairo

- Configure, deploy, and maintain Cisco enterprise routers and Catalyst switches.
- Install, configure, and troubleshoot FortiGate firewalls.
- Configure VLANs, STP, EtherChannel, OSPF, ACLs, NAT, and enterprise network services.
- Install, configure, and administer Windows Server environments.
- Configure and support Cisco Unified CME and SIP IP Telephony solutions.
- Troubleshoot network, server, security, and VoIP issues to ensure high service availability.
- Deploy and configure enterprise wireless access points.
- Provide technical support for enterprise customers.
- Perform preventive maintenance, firmware upgrades, and infrastructure monitoring.

Accomplishments

- Successfully deployed Cisco enterprise network solutions.
- Implemented secure FortiGate firewall configurations.
- Supported Cisco IP Telephony (CME & SIP) deployments.
- Managed Windows Server environments.
- Delivered enterprise-level technical support and troubleshooting.

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA)
- Microsoft Certified Solutions Associate (MCSA)
- Certificate of Training – Netway Network Solutions

EDUCATION

Higher Institute for Qualitative Studies
Ma'had Al-Batran Street, Nazlat Al-Batran, Al-Hara
achelor of Management Information Systems (MIS)
Graduated: 2024

SKILLS

- Cisco Routing & Switching
- FortiGate Firewalls
- Network Security
- VoIP solutions
- Wireless Networking
- Network Troubleshooting
- Enterprise Networking
- Infrastructure & Systems Administration
- Networking protocols
- Routing protocols
- DNS, DHCP
- Group Policy
- Network Automation
- Linux systems

PROFESSIONAL DEVELOPMENT

- *Cisco Certified Network Associate (CCNA) Training*
- *Cisco Certified Network Professional Security (CCNP SCOR) Training*
- *Fortinet NSE4 Training (Completed – Certification Pending)*
- *Red Hat Enterprise Linux Administration I & II (Completed – Certification Pending)*
- *Cisco VoIP (CME & SIP) Training*
- *DevOps Diploma (In Progress)*

PROFESSIONAL PROJECTS

- *Enterprise Network Deployment*
- *Deployment and maintenance of Cisco routing and switching infrastructure for enterprise customers.*
- *FortiGate Security Implementation*
- *Firewall deployment, VPN configuration, and security policy implementation.*
- *Cisco VoIP Deployment*
- *Implementation and troubleshooting of Cisco CME and SIP IP Telephony.*
- *Windows Server Administration*
- *Installation, configuration, and maintenance of Windows Server environments.*
- *Enterprise Wireless Deployment*
- *Deployment and optimization of wireless network infrastructure.*
